Fibrant Announces Network Maintenance

Upgrades Scheduled To Take Place

Salisbury_North Carolina_July 11 – The City of Salisbury’s Fibrant service will be upgrading its infrastructure beginning Monday, July 16 and concluding Friday, August 3. The upgrades will take place from 12:00-6:00 a.m. during this period, with the exception of weekends when work will be suspended.

Being one of the most advanced fiber optic networks in the country, Salisbury’s Fibrant network needs certain upgrades to maintain the superior level of service it provides. This round of upgrades will include adding enhanced equipment and a second internet circuit for redundancy. These upgrades will allow Fibrant to continue to seek a 99.999% reliability rating and provide superior service to our valuable customers.

This maintenance has been planned over the last several months and will be conducted in the most efficient way possible as to limit the amount of interrupted service. Fibrant feels the maintenance time frame of 12:00-6:00 a.m. and suspending maintenance on weekends will have the smallest impact on service.

Fibrant currently has over 2,000 customers and provides internet, television and phone services exclusively for residents and businesses within the Salisbury city limits. As a state of the art, fiber to the home utility, Fibrant employs 100% fiber optics to carry a full suite of communication services to residential homes and businesses.

For more information regarding Fibrant, its services or programs, citizens may call (704) 216-7467.

The City of Salisbury is an equal opportunity employer with over 180 different job classifications and more than 400 full time positions.
